

American Society of Civil Engineers (ASCE), a premier international professional body, is known for its excellence in the field of Civil Engineering.

In order to get global exposure to their advanced technology, it was decided to create an International Students Group at our institute and accordingly ASCE were contacted.

Inspired by overwhelming response from us, Mr. Gregory E. Diloreto, President ASCE along with Mrs Meggan Brown , Director International Affairs and Mr. Patrick Natale, Executive Director came down to our Institute on 16th August, 2013 to inaugurate a program for formation International Student Group of ASCE . A captivating lecture on “sustainability of the Infrastructure development, directly related to Civil Engineering” by Mr. Gregory E. Diloreto, President ASCE kept the student and faculties spell bound. Twenty student member were awarded Mementos by President ASCE.

In The Evening session an Industrial meet followed by dinner was arranged at BCCI under sponsorship.

Eminent personalities of Civil Engineering Industries & Institutions were called. Our Faculties and other Officials got the opportunity to interact with Industrial heavy weights, keeping in view the interests of JIS Group.
