

## FACULTY Vs STUDENTS FOOTBALL EXHIBITION MATCH

The Student Life Center of Narula Institute of Technology hosted an exhibition match of football between the faculty members and the students of the college on 28<sup>th</sup> March 2014. The match was unique because of its content. The 1<sup>st</sup> half of the match was a

goal less draw. Every offence from the teacher's side was defended well by their students. In the 1<sup>st</sup> half there were several instances when students could have scored goal, but a solid defense and an equally effective goalkeeper made sure that the match was a draw. In 2<sup>nd</sup> half, the teachers changed their strategy, they went

on for a full attack. Their strategy paid off well, when the referee awarded them a penalty. The penalty was converted into a goal. After the goal, the students team started attacking, but a solid defense line up insured there are no

hiccups in the perfect game. At the end of the day, the teachers out did their students and deserved every bit of the win. They just showed that they still have a few tricks up their sleeve, which their students have not learnt so far.
