

Friday, July 18, 2014, 3 pm—5 pm
Seminar Room, Narula Institute of Technology
81, Nilgunj Road, Agarpara, Kolkata 700 109

Presentation 1:

“Incorporating Safety in Structural Design” by

Srirup Mitra, CEng (Ind.), M.ASCE, AECOM, Kolkata

Srirup Mitra is an Associate at AECOM, Kolkata and has varied experience in design of different types of structures in a number of challenging and important projects across the Middle-East, UK, and India. His talk will focus on including “*safety*” in structural analysis and related aspects as per the CDM regulations from the perspective of a practicing design engineer.

Presentation 2:

“Engineering Ethics in the Real World” by

David Allen Douglass, PE, Louis Berger Group, Inc.

David Douglass presently leads a team of Consultants involved in project management for “*Guwahati Water Supply Project*” funded by the Japanese International Cooperation Agency (JICA). Having worked in a variety of international projects in South America and Asia under exotic cultural and engineering scenarios over the past three decades including the United States, he will direct his address towards ethics and professionalism of practicing civil engineers under national and international conditions.

Tea and refreshment will be served at the end of the session

**This event is supported by ASCE Forming International Students’ Group
and ICE Student Chapter at Narula Institute of Technology**
