

## 8 MCA students returned after completing winter internship from Tata Communications Kolkata

8 pre final year MCA students along with 2 ECE students successfully completed their 1 month internship training from Tata Communications Ltd. (formerly VSNL India) Kolkata. Internship duration was from 5th January to 5th February. Students have been given training on Broadband Mobile Communications basic, SDH, and Optical fiber communication. Students were fortunate to visit TATA Communications O & M (operations Maintenance) site from where they control the entire West Bengal's corporate broadband connectivity through FDDI. Participating students will be assigned a project based on their learning at TATA Communications. This project will be treated as their final year major project for the partial fulfillment of MCA degree and would be jointly supervised by NIT and TATA Communications.
