Memo No: NIT/PRIN/15/235

Date: 12/03/2015

NOTICE

This is to inform all the students, faculty and staff members of Narula Institute of Technology that the **Environment & Community Connect Club** under SLC will organise a **Thalassaemia Awareness Program** in collaboration with Barrackpore Rastraguru Surendranath College and Indian Red Cross Society, Barrackpore on 23rd March 2015. Thalassaemia is a deadly disease and to know in details about this threatening disease we would organise a small discussion about Thalassaemia in the seminar hall at 11a.m. followed by Thalassaemia Detection Program.

In the detection program we will arrange a pathological set up for blood collection and the report will be received by every individual in sealed envelope. We all know '**Prevention is better than cure**' so let us all participate in the program and struggle to achieve a **Thalassaemia free India**.

Prof. Dr M R Kanjilal
Principal
