# ABOUT THE NATIONAL CADET CORPS

The National Cadet Corps (NCC) is one of India's premier youth organisations, dedicated to developing character, discipline, leadership, and patriotism among young citizens. Established on 16th July 1948 under the National Cadet Corps Act, the organisation functions under the Ministry of Defence, Government of India, with the vision of nurturing responsible and committed individuals who can contribute meaningfully to the nation.

As a tri-services organisation comprising the Army, Navy, and Air Force wings, NCC provides school and college students with opportunities to participate voluntarily in structured training and developmental activities. It stands among the largest uniformed youth organisations in the world, offering a platform for young individuals to develop their abilities through discipline, teamwork, and active participation.

The motto of NCC, **"Unity and Discipline,"** reflects its commitment to national integration, mutual respect, collective responsibility, and the spirit of service. These principles remain central to its training philosophy and guide cadets in their journey towards becoming responsible citizens.

The training framework encompasses military drills, physical fitness, leadership development, adventure activities, and community service initiatives. Cadets also participate in various camps and national-level programmes, including:

- Annual Training Camps (ATC)
- Republic Day Camp (RDC)
- Thal Sainik Camp (TSC)
- Nau Sainik Camp (NSC)
- Vayu Sainik Camp (VSC)
- Youth Exchange Programme (YEP)

Through these diverse activities, NCC encourages confidence, self-discipline, teamwork, resilience, and leadership among cadets while strengthening their sense of national pride and civic responsibility.

Beyond structured training, NCC plays an important role in community development, environmental awareness, social welfare, and voluntary assistance during natural calamities and national emergencies. Its emphasis on service encourages cadets to become proactive contributors to society. Many former cadets have also pursued careers in the Armed Forces, civil services, and other significant professional fields.

In essence, the National Cadet Corps represents a journey of learning, character building, and national service. It continues to inspire young citizens to embrace responsibility, demonstrate leadership, and contribute towards building a united, progressive, and resilient India.

# NCC AT NARULA INSTITUTE OF TECHNOLOGY

The **National Cadet Corps (NCC) Unit of Narula Institute of Technology** was established in 2021, marking an important milestone in the institution's commitment towards holistic education, character building, and nation-building. The establishment of the unit created an opportunity for students to become part of a nationally recognised youth organisation that emphasises discipline, leadership, patriotism, and selfless service. Beginning with an initial strength of 50 cadets, the unit has continued its journey with the objective of nurturing responsible, confident, and socially conscious individuals who are committed to the values of the National Cadet Corps.

Since its inception, the NCC unit has played a significant role in fostering a culture of unity, discipline, and collective responsibility within the institution. Through regular parade practices, ceremonial activities, training sessions, and participation in various institutional programmes, cadets are encouraged to develop punctuality, coordination, teamwork, and a strong sense of commitment. These activities provide valuable opportunities for students to experience discipline beyond the conventional academic environment and understand the importance of dedication, perseverance, and mutual cooperation.

An important aspect of the unit's functioning is its emphasis on community engagement and social responsibility. Cadets have actively participated in several initiatives aimed at promoting public awareness and contributing towards the welfare of society. Activities such as tree plantation drives, blood donation camps, participation in Swachh Bharat Abhiyan, environmental awareness programmes, and social welfare initiatives reflect the unit's commitment to extending the spirit of NCC beyond the institutional campus. Through these engagements, students are

encouraged to recognise their responsibilities towards the environment, society, and fellow citizens.

The unit also places considerable emphasis on the overall personality development of its cadets through participation in various training programmes, camps, and inter-collegiate activities. Such opportunities expose students to new challenges, competitive environments, and experiences that contribute to their personal and collective growth. Participation in NCC activities helps strengthen physical fitness, confidence, communication skills, leadership abilities, and adaptability. The structured training framework further encourages essential life values such as time management, teamwork, mutual respect, obedience, resilience, and national pride.

The development and functioning of the NCC unit have been supported by the continuous encouragement of the college management, Associate NCC Officers (ANOs), and dedicated NCC instructors. Their guidance, supervision, and commitment play an important role in organising training activities, motivating cadets, and maintaining the discipline and traditions associated with the organisation. The collective efforts of the institutional authorities and NCC personnel contribute towards creating an environment where students can explore their potential, accept responsibilities, and develop leadership qualities.

At Narula Institute of Technology, the National Cadet Corps represents much more than a co-curricular engagement. It serves as a platform for character formation, leadership development, national integration, and community service. By encouraging students to participate, learn, lead, and serve, the unit strives to nurture individuals who uphold the principles of unity, integrity, discipline, and patriotism.

The journey of the NCC unit reflects the institution's belief that education extends beyond classrooms and laboratories. Alongside academic and professional excellence, students must also develop the qualities required to become responsible citizens and contribute meaningfully to society. Through its continued commitment to these ideals, the NCC unit of Narula Institute of Technology remains dedicated to inspiring young minds and preparing them for a future guided by discipline, leadership, and service to the nation.

# MESSAGE FROM THE CTO

It is a privilege to be associated with the National Cadet Corps (NCC) at Narula Institute of Technology and to contribute to the development of young individuals through the values of discipline, leadership, patriotism, and selfless service. The NCC provides a unique platform where students learn the importance of commitment, responsibility, teamwork, and national integration. It also encourages them to become confident individuals who are prepared to contribute meaningfully to society.

The academic year 2025–26 has provided another valuable opportunity for our cadets to participate in activities that promote personal growth, physical fitness, social awareness, and a sense of duty towards the nation. Through regular training, parade practices, institutional programmes, and community-oriented initiatives, NCC continues to play an important role in shaping students into responsible and disciplined citizens. Each activity offers a learning experience that extends beyond the classroom and helps cadets develop practical skills, confidence, and a spirit of cooperation.

As CTO, I firmly believe that the true essence of NCC extends far beyond uniforms, parades, and ceremonial occasions. It lies in the values that cadets imbibe and carry into their everyday lives: punctuality, perseverance, integrity, mutual respect, and the willingness to serve others. The challenges encountered during training and various activities help develop resilience, self-confidence, and the ability to work collectively towards a common goal. These qualities are essential not only for a successful professional life but also for becoming responsible members of society.

I sincerely appreciate the enthusiasm, dedication, and commitment demonstrated by our cadets throughout their NCC journey. Their willingness to learn, participate, and take responsibility remains the driving force behind the continued growth of our unit. I also express my heartfelt gratitude to the management of Narula Institute of Technology, the NCC authorities, officers, instructors, faculty members, and all those who have extended their valuable support and cooperation towards our activities.

I look forward to witnessing our cadets continue their journey with greater dedication, discipline, and a strong sense of purpose. May they always uphold the ideals of the National Cadet Corps and carry its spirit of service and patriotism throughout their lives.

# CELEBRATING FREEDOM AND NATIONAL PRIDE: INDEPENDENCE DAY 2025

**August 2025:** Independence Day holds a special place in the history of India, reminding every citizen of the sacrifices, courage, and determination of the freedom fighters who laid the foundation of an independent nation. On 15 August 2025, the National Cadet Corps (NCC) unit of Narula Institute of Technology observed the occasion with a spirit of patriotism, unity, and national pride.

For NCC cadets, Independence Day is more than a national celebration. It is an occasion to reflect upon the values of discipline, responsibility, integrity, and service that form the foundation of the organisation. The celebration provided an opportunity for cadets to express their respect for the nation, honour the legacy of the freedom struggle, and reaffirm their commitment to the ideals of unity and national integration.

The participation of NCC cadets added a sense of discipline and enthusiasm to the observance. Wearing their uniforms with pride, the cadets represented the spirit of the National Cadet Corps and its commitment to nurturing responsible citizens. Their involvement reflected the importance of active participation in national occasions and helped strengthen their sense of belonging, collective responsibility, and respect for the country's heritage.

The occasion also served as a reminder that the freedom enjoyed today carries with it a responsibility to contribute positively towards the progress and well-being of the country. Independence Day encourages young people to look beyond individual aspirations and recognise their role in building a stronger, more inclusive, and progressive India. Through their association with NCC, cadets are encouraged to develop leadership qualities, respect for diversity, confidence, and a willingness to serve society.

Such national observances provide valuable learning experiences beyond the classroom. They help students understand the significance of constitutional values, civic duties, and the responsibilities of citizenship. For young cadets, these experiences reinforce the belief that patriotism is not limited to a single day of celebration but should be reflected through discipline, honesty, dedication, and meaningful contributions to society.

The observance of Independence Day at Narula Institute of Technology reflected the continuing commitment of its NCC unit to promoting patriotism, discipline, and civic responsibility among students. It was a meaningful occasion for the cadets to honour India's freedom struggle and renew their dedication towards the nation.

# BEHIND THE WINGS: AN IMMERSIVE EXPERIENCE WITH THE INDIAN AIR FORCE

**Air Force Attachment Camp | Air Force Station Kalaikunda | LFC Priyanshu Kumar Singh**

**August 2025:** The Air Force Attachment Camp provides NCC cadets with an opportunity to gain first-hand exposure to the functioning, organisation, and operational environment of the Indian Air Force. Such attachment programmes help bridge the gap between theoretical knowledge and practical understanding by introducing cadets to different aspects of air station operations, technical services, aviation infrastructure, and military discipline.

From **4 August to 15 August 2025**, **LFC Priyanshu Kumar Singh** of Narula Institute of Technology attended the Air Force Attachment Camp at Air Force Station Kalaikunda. The programme offered an extensive learning experience through visits to several important sections of the station, providing an insight into the diverse responsibilities involved in maintaining and operating an Air Force establishment.

The camp followed a structured day-wise schedule. On 5 August, the programme began with a visit to the Station Briefing Area, followed by exposure to Air Traffic Control (ATC) on 6 August. The subsequent visits included the Aircraft Hangar on 7 August and the Technical/Engineering Section on 8 August. On 9 August, the airfield and runway area provided an opportunity to understand the infrastructure associated with aircraft operations.

The learning experience continued with visits to the Operations Section on 10 August and the Meteorological Section on 11 August, followed by the Aircraft Maintenance Area on 12 August. On 13 August, the cadet visited the Training/Briefing Centre, gaining further exposure to the training and briefing environment. The programme also included a visit to the Station Museum/Heritage Area on 14 August, offering an opportunity to explore the history and legacy associated with the station.

The camp concluded on 15 August with the observance of Independence Day, adding a meaningful national dimension to the attachment experience.

The Air Force Attachment Camp was a significant opportunity for LFC Priyanshu Kumar Singh to gain exposure to the professional environment of the Indian Air Force. It reinforced the importance of discipline, technical knowledge, coordination, and dedication while strengthening his understanding of the values upheld by the armed forces.

# HONOURING A JOURNEY OF SERVICE: FAREWELL TO THE 2025 BATCH

## Farewell Ceremony for C Certificate Cadets

**August 2025:** Every journey of discipline, learning, and service leaves behind memories, experiences, and valuable lessons. Within the National Cadet Corps, the completion of a training journey marks not merely an end but also the beginning of a new chapter in the lives of cadets. With this spirit, the NCC unit of Narula Institute of Technology organised a farewell programme on 22 August 2025 to honour the outgoing batch of cadets who had completed their NCC C Certificate examination.

The occasion was dedicated to recognising the commitment, perseverance, and contribution of the outgoing cadets during their association with the National Cadet Corps. Their journey through NCC training involved experiences that extended beyond routine academic life, encouraging them to develop discipline, leadership, teamwork, physical fitness, and a strong sense of responsibility.

The C Certificate examination represents an important milestone in a cadet's NCC journey. It reflects the culmination of sustained training, preparation, and participation in the various activities associated with the organisation. Completing this stage provides cadets with a foundation of knowledge, experience, and values that can remain meaningful throughout their personal and professional lives.

The farewell gathering also provided an opportunity to acknowledge the bonds developed among cadets through shared training experiences, responsibilities, and challenges. The outgoing members had been part of the unit's journey, and their association contributed to the collective spirit of the NCC community at the institute.

For the continuing cadets, the occasion served as a reminder that the values of the National Cadet Corps must be carried forward from one batch to the next. The experiences and dedication of the outgoing members can inspire their juniors to remain committed to training, participate actively in NCC activities, and uphold the ideals of the organisation.

The farewell programme was a heartfelt acknowledgement of the outgoing batch's association with the NCC unit of Narula Institute of Technology. As the cadets moved towards new opportunities and responsibilities, they carried with them the enduring values of Unity and Discipline.

# EXPLORING NEW HORIZONS: ADVENTURE, ENDURANCE AND TEAM SPIRIT

## All India Trekking Camp 2026 | CSUO Maitreye Chattopadhyay and Cdt Neha Pathak

**September 2025:** The All India Trekking Camp is an important outdoor training initiative of the National Cadet Corps, designed to develop adventure spirit, physical endurance, self-confidence, and teamwork among cadets. It provides participants with an opportunity to explore unfamiliar surroundings, experience the challenges of trekking, and develop a deeper appreciation of nature and the outdoors.

The participation of **CSUO Maitreye Chattopadhyay** and **Cdt Neha Pathak** of Narula Institute of Technology in the All India Trekking Camp 2026 marks a valuable experience in the journey of the institute's NCC unit. Their involvement reflects the enthusiasm of the cadets in embracing opportunities that extend beyond routine training and encourage personal growth through adventure and exploration.

Trekking is an activity that tests both physical and mental strength. Navigating unfamiliar routes, maintaining endurance over long distances, and adapting to changing outdoor conditions require determination, patience, and discipline. Such experiences help cadets develop resilience, confidence, decision-making abilities, and the willingness to overcome challenges through consistent effort.

An important aspect of trekking camps is the spirit of camaraderie developed among participants. Cadets from different regions and backgrounds come together, share experiences, and support one another throughout the journey. This interaction strengthens teamwork, mutual understanding, cooperation, and national integration, which are among the core values promoted by the NCC.

For CSUO Maitreye Chattopadhyay and Cdt Neha Pathak, participation in the camp offered an opportunity to step outside their familiar environment, test their abilities, and gain experiences that contribute to their overall development. Such activities encourage young individuals to become more confident, adaptable, responsible, and prepared to face challenges.

The participation of the two cadets in the All India Trekking Camp 2026 reflects the NCC unit's commitment to promoting adventure, leadership, physical fitness, and a spirit of exploration among its members.

# SOARING HIGH: A JOURNEY OF DISCIPLINE AND EXCELLENCE

## All India Vayu Sainik Camp (AIVSC) 2025

**September-October 2025:** The All-India Vayu Sainik Camp (AIVSC) is one of the significant national-level training events organised for cadets of the NCC Air Wing. It provides a platform for cadets from different parts of the country to come together, demonstrate their abilities, exchange experiences, and strengthen their understanding of discipline, teamwork, and leadership. The camp also reflects the spirit of healthy competition and the importance of continuous learning in the development of young individuals.

The participation of cadets from the NCC unit of Narula Institute of Technology in AIVSC 2025 represented an important opportunity to experience the wider dimensions of NCC training. As a national-level platform, the camp encourages cadets to broaden their outlook, interact with fellow participants, and develop a deeper appreciation of the responsibilities associated with the Air Wing. It also provides exposure to a structured training environment where dedication, preparation, coordination, and self-discipline play an essential role.

AIVSC offers cadets an opportunity to enhance their knowledge and practical understanding of various aspects associated with the Air Wing. The training environment encourages them to approach new challenges with confidence, maintain composure under pressure, and work collectively towards shared objectives. Such experiences help nurture essential qualities including leadership, adaptability, time management, perseverance, and a sense of responsibility.

Beyond the training and competitive aspects, the camp also promotes camaraderie and national integration. Interaction among cadets belonging to different regions and backgrounds creates opportunities to appreciate India's cultural diversity and develop mutual respect. These shared experiences strengthen the spirit of unity and reinforce the NCC motto, **"Unity and Discipline."**

For the cadets, participation in a national-level camp is not merely an opportunity to represent their institution; it is also a valuable stage in their personal development. The exposure gained through such experiences can inspire greater commitment towards future training and encourage them to set higher goals in their NCC journey.

AIVSC 2025 stands as a meaningful chapter in the activities of the NCC Air Wing at Narula Institute of Technology. It reflects the importance of providing cadets with opportunities to learn, grow, and challenge themselves while upholding the values of discipline, dedication, and service.

# BEYOND THE TARGET: DEVELOPING FOCUS AND PRECISION

## Skeet Shooting Training | NCC

**November 2025:** Skeet shooting is a challenging sporting activity that combines concentration, coordination, alertness, and precision. As part of the diverse training experiences offered through the National Cadet Corps (NCC), exposure to shooting sports helps cadets develop mental discipline, confidence, and the ability to respond calmly under demanding conditions. In November 2025, cadets associated with the NCC unit of Narula Institute of Technology participated in a skeet-shooting activity, gaining practical exposure to this specialised sporting discipline.

Unlike conventional target shooting, skeet shooting involves tracking and aiming at moving clay targets launched into the air. The activity requires participants to maintain visual awareness, coordinate their movements, and respond with accuracy within a limited time. It demands patience, concentration, controlled movement, and consistent practice. The experience also highlights the importance of following instructions and maintaining strict safety discipline throughout the activity.

For NCC cadets, participation in such activities provides learning opportunities beyond regular parade and classroom-based training. It encourages them to explore different sporting disciplines while developing qualities such as self-control, determination, alertness, and perseverance. Handling a challenging activity in a supervised training environment also helps build confidence and an understanding of the importance of preparation and responsible conduct.

The skeet-shooting session offered cadets an opportunity to observe and experience the fundamentals of the sport in a practical setting. Such exposure broadens their understanding of specialised training activities and encourages them to approach unfamiliar challenges with enthusiasm and discipline.

The activity reflects the NCC unit's continued emphasis on providing cadets with varied experiences that contribute to their overall development. By encouraging participation in different forms of training and sports, the unit seeks to nurture individuals who are confident, disciplined, adaptable, and willing to learn.

The skeet-shooting activity of November 2025 was a valuable addition to the training experiences of the NCC unit at Narula Institute of Technology, reinforcing the importance of focus, precision, safety, and perseverance.

# TAKING FLIGHT: INNOVATION, SKILL AND TECHNICAL EXCELLENCE

## Inter Directorate Drone Competition 2026 | Cdt/Sgt Vishal Dubey

**November 2025:** The Inter Directorate Drone Competition 2026 provided a platform for NCC cadets to engage with emerging aviation technologies and demonstrate their technical abilities, precision, and problem-solving skills. As drone technology continues to find applications in areas such as surveillance, disaster management, infrastructure inspection, and aerial operations, exposure to this field offers valuable learning opportunities for young cadets, particularly those associated with the NCC Air Wing.

**Cdt/Sgt Vishal Dubey** of Narula Institute of Technology participated in the Inter Directorate Drone Competition 2026, representing an important step in his NCC journey. His participation reflects the opportunities available to cadets to explore technology-oriented activities and gain exposure to specialised areas beyond conventional training.

Drone-based activities require a combination of technical understanding, concentration, coordination, and the ability to make decisions with accuracy. Participants must develop an understanding of equipment, operational principles, flight control, and the importance of following prescribed safety procedures. Such experiences encourage analytical thinking, practical learning, and confidence while working with technology.

For NCC cadets, participation in a competition of this nature also provides an opportunity to interact with participants from other Directorates and learn from different approaches to technical training. The competitive environment encourages preparation, discipline, adaptability, and teamwork. It also introduces cadets to the growing role of unmanned aerial systems in modern technology and their potential applications in various fields.

For Narula Institute of Technology, Vishal Dubey's participation reflects the NCC unit's efforts to encourage cadets to explore diverse learning opportunities and develop skills that complement their academic education. Such exposure can inspire young individuals to take an active interest in innovation, aviation, and emerging technologies.

The Inter Directorate Drone Competition 2026 stands as a valuable experience in the NCC journey of Cdt/Sgt Vishal Dubey, highlighting the importance of technical curiosity, dedication, and continuous learning.

# EXPLORING THE FUTURE OF AVIATION: DRONE DEMONSTRATION

## Technical Exposure Visit | Behala Flying Club, Kolkata

**November 2025:** The rapid development of drone technology has opened new possibilities in the field of aviation and has expanded its applications across several sectors, including surveillance, disaster management, infrastructure inspection, agriculture, and aerial operations. For cadets of the National Cadet Corps Air Wing, exposure to such emerging technologies provides an opportunity to develop technical curiosity and gain a broader understanding of modern aviation.

The NCC unit of Narula Institute of Technology participated in a drone demonstration at **Behala Flying Club, Kolkata**. The programme offered cadets an opportunity to observe drone technology in a practical environment and understand its growing relevance in contemporary aviation. The demonstration served as an informative experience, connecting theoretical knowledge with practical exposure to unmanned aerial systems.

Drone operations involve several important technical aspects, including flight control, stability, navigation, manoeuvrability, and coordination between the operator and the aircraft. Observing a demonstration helps cadets appreciate how these components work together to ensure controlled and effective flight operations. It also highlights the importance of technical precision, situational awareness, and adherence to operational safety procedures.

For Air Wing cadets, such exposure is particularly valuable as it encourages an interest in aviation beyond conventional aircraft and introduces them to the expanding possibilities of unmanned aerial technology. It provides an opportunity to understand the role of innovation in modern aviation and appreciate how technological advancements continue to influence operational practices.

The visit also encouraged curiosity, observation, and interactive learning among the participating cadets. Exposure to specialised aviation facilities and demonstrations can inspire young individuals to explore technical subjects, develop problem-solving abilities, and remain open to emerging fields of knowledge.

The drone demonstration at Behala Flying Club was a meaningful learning experience for the NCC unit of Narula Institute of Technology. It reinforced the importance of technical awareness, innovation, and continuous learning while broadening the cadets' understanding of the evolving aviation landscape.

# FROM CAMPUS TO THE NATIONAL STAGE

## Republic Day Camp (RDC) 2026 | CSUO Maitreye Chattopadhyay

**December- January 2026:** The Republic Day Camp (RDC) is one of the most prestigious events in the National Cadet Corps calendar, bringing together selected cadets from across the country to participate in a series of national-level activities and represent their respective Directorates. Organised as part of the Republic Day celebrations, the camp provides a distinguished platform for young cadets to demonstrate discipline, leadership, commitment, and a strong sense of national pride.

The association of **Cadet Senior Under Officer (CSUO) Maitreye Chattopadhyay** of Narula Institute of Technology with RDC 2026 marks a significant moment in the journey of the institute's NCC unit. Her presence at this prestigious national-level camp reflects the opportunities that the National Cadet Corps offers to dedicated cadets to develop their abilities and gain exposure beyond the institutional level.

The Republic Day Camp provides an enriching environment where cadets from diverse cultural, linguistic, and geographical backgrounds come together. Through structured activities, interactions, and collective participation, the camp promotes national integration, mutual respect, teamwork, and a deeper understanding of India's unity in diversity. It also encourages cadets to uphold the highest standards of discipline, punctuality, perseverance, and personal conduct.

For a cadet, being associated with such a national-level event is a valuable learning experience. The exposure helps broaden perspectives, strengthen confidence, and develop the ability to adapt to new environments and responsibilities. It also reinforces the importance of leadership, dedication, and collective effort, qualities that remain central to the philosophy of the NCC.

For Narula Institute of Technology, CSUO Maitreye Chattopadhyay's association with RDC 2026 represents an important milestone in the continuing journey of its NCC unit. Her experience serves as an encouragement to fellow cadets to remain committed to their training, pursue opportunities with determination, and strive for excellence in their respective roles.

The occasion stands as a reminder that the NCC journey is built upon consistent effort, discipline, and a willingness to take on new challenges. Such experiences help shape young individuals into confident, responsible, and service-oriented citizens who carry the values of the organisation throughout their lives.

# UNITY IN DIVERSITY: A NATIONAL EXPERIENCE

## Special National Integration Camp (SNIC) 2026 | LFC Aditya Raj Yadav

**January 2026:** The Special National Integration Camp (SNIC) is an important initiative of the National Cadet Corps that brings together cadets from different regions of the country to promote national unity, cultural understanding, mutual respect, and a spirit of togetherness. Such camps provide a platform for young individuals to interact beyond geographical, linguistic, and cultural boundaries while strengthening their commitment to the ideals of national integration.

**LFC Aditya Raj Yadav** of Narula Institute of Technology participated in the Special National Integration Camp at Jaisalmer, Rajasthan, in 2026. His participation provided an opportunity to be part of a national-level gathering of NCC cadets and experience the diverse cultural and social fabric of the country.

A major objective of such camps is to encourage interaction among cadets belonging to different states and backgrounds. Through shared experiences, group activities, and cultural exchanges, participants gain a better understanding of India's diversity and the values that unite its people. The camp environment encourages friendship, cooperation, tolerance, and mutual appreciation, helping cadets develop a broader national outlook.

The experience also contributes to the personal development of participants by strengthening confidence, communication skills, adaptability, and teamwork. Living and interacting in a camp environment requires discipline, punctuality, responsibility, and respect for collective arrangements. These qualities are essential for developing leadership and preparing young individuals to take on responsibilities in society.

The setting of Jaisalmer, with its distinctive desert landscape and cultural heritage, provided a meaningful backdrop for this national-level experience. Participation in the camp allowed LFC Aditya Raj Yadav to engage with fellow cadets, appreciate regional diversity, and gain experiences beyond the boundaries of his regular institutional environment.

For the NCC unit of Narula Institute of Technology, his participation reflects the importance of encouraging cadets to take part in national-level programmes that promote unity, leadership, and responsible citizenship.

SNIC 2026 stands as a valuable chapter in the NCC journey of LFC Aditya Raj Yadav, reinforcing the belief that India's strength lies in its diversity and collective spirit.

# HONOURING THE CONSTITUTION: CELEBRATING THE SPIRIT OF REPUBLIC INDIA

## 77th Republic Day Celebration | 26 January 2026

**January 2026:** Republic Day is one of the most significant national occasions in India, commemorating the adoption of the Constitution on 26 January 1950. The day reminds every citizen of the principles of justice, liberty, equality, and fraternity that form the foundation of the Indian Republic. It is also an occasion to honour the democratic values, national unity, and collective responsibilities that guide the nation's progress.

On **26 January 2026**, the National Cadet Corps (NCC) unit of Narula Institute of Technology observed the 77th Republic Day with a spirit of patriotism, discipline, and national pride. The occasion provided an opportunity for cadets to express their respect for the Constitution and reaffirm their commitment to the ideals and responsibilities of responsible citizenship.

For NCC cadets, Republic Day holds particular significance as it reflects the very values that the organisation seeks to instil among young individuals. Discipline, unity, leadership, integrity, and respect for the nation are not merely principles associated with ceremonial occasions; they are qualities that cadets are encouraged to practise throughout their lives. Participation in national celebrations helps strengthen their understanding of these values and their importance in building a responsible society.

The observance also served as a reminder that the Constitution is more than a governing document. It represents the aspirations of a diverse nation and establishes the framework through which citizens enjoy their rights while fulfilling their duties. For young cadets, understanding these principles is an important part of developing awareness, social responsibility, and respect for democratic institutions.

The occasion encouraged cadets to look beyond individual achievements and recognise their role in contributing to the nation's development. Through their association with the NCC, they are motivated to uphold the spirit of national integration, respect diversity, and serve society with sincerity and dedication.

The Republic Day observance at Narula Institute of Technology marked a meaningful conclusion to the year's documented NCC activities. It reflected the unit's continued commitment to nurturing disciplined, confident, and patriotic young citizens who understand the value of service and responsibility.

As the nation celebrated its constitutional heritage, the cadets renewed their commitment to the ideals of the National Cadet Corps and the progress of the country.

# A VISIT TO RAJ BHAVAN: AN EXPERIENCE OF HERITAGE AND CIVIC AWARENESS

## Governor House Visit | 9 February 2026

**February 2026:** An institutional visit to an important centre of constitutional and administrative significance provides students with an opportunity to connect their academic and personal learning with the broader framework of public life. Such experiences help young individuals develop an understanding of governance, public institutions, heritage, and the responsibilities associated with citizenship.

On **9 February 2026**, cadets of the National Cadet Corps (NCC) unit of Narula Institute of Technology visited the Governor's House in Kolkata, popularly known as Raj Bhavan. The visit offered an opportunity to explore a place of historical and administrative importance and gain an appreciation of its significance in the constitutional framework of West Bengal.

Raj Bhavan is closely associated with the history and governance of the state. Its architectural character and institutional role make it an important landmark in Kolkata. For the participating cadets, the visit provided an opportunity to observe an environment that represents public service, constitutional responsibility, and the traditions of the state's administration.

For NCC cadets, exposure to such institutions complements the values promoted through regular training. The National Cadet Corps encourages young people to become disciplined, informed, and responsible citizens. Visits to places of historical and administrative importance help broaden their outlook and strengthen their awareness of the institutions that contribute to the functioning of society.

The experience also encouraged cadets to appreciate the relationship between history, heritage, and contemporary governance. Understanding the significance of important public institutions helps students develop a greater sense of civic responsibility and respect for the country's constitutional framework.

The Governor House visit was a valuable learning experience for the cadets of Narula Institute of Technology. It provided an opportunity to step beyond the conventional academic environment, explore an important landmark of Kolkata, and gain a broader perspective on public institutions and their role in society.

The visit reflected the NCC unit's continued emphasis on learning through meaningful exposure and experiences that contribute to the development of aware, responsible, and socially conscious citizens.

# KHEL 9: CELEBRATING SPORTSMANSHIP AND TEAM SPIRIT

## NCC Sports Event | 15 March 2026

**March 2026:** Sports and physical activities form an essential part of the National Cadet Corps training programme. They promote physical fitness, mental alertness, discipline, teamwork, and the ability to face challenges with confidence. Recognising the importance of sports in the holistic development of cadets, the NCC organises sporting activities that encourage participation, healthy competition, and camaraderie.

On **15 March 2026**, the NCC unit of Narula Institute of Technology participated in **Khel 9**, an NCC sports event organised to promote sporting enthusiasm and physical fitness among cadets. The event provided a platform for participants to engage in sports-related activities, demonstrate their abilities, and experience the values of teamwork and sportsmanship.

Khel 9 emphasised the importance of maintaining an active and healthy lifestyle. Participation in sporting activities helps cadets develop physical endurance, coordination, agility, and mental resilience. Beyond physical benefits, sports also teach valuable life lessons such as discipline, perseverance, patience, respect for opponents, and acceptance of both success and setbacks.

The event encouraged cadets to come forward, participate enthusiastically, and interact with fellow participants in a spirit of cooperation and friendly competition. Such interactions strengthen bonds among cadets and help develop mutual respect and a sense of belonging. They also provide opportunities to identify individual strengths, improve confidence, and understand the importance of collective effort in achieving common goals.

For NCC cadets, sporting events complement regular parade and training activities by providing a different environment in which discipline and teamwork can be practised. They reinforce the understanding that physical preparedness and mental determination are equally important qualities for responsible and capable individuals.

The participation of Narula Institute of Technology's NCC unit in Khel 9 reflected its continued emphasis on encouraging cadets to remain active, disciplined, and enthusiastic about sports. The event served as a meaningful occasion to celebrate fitness, friendship, and the spirit of healthy competition.

# HONOUR IN EVERY STEP: ADG ALPHA GUARD OF HONOUR

## 20 March 2026 | Narula Institute of Technology NCC Unit

**March 2026:** A Guard of Honour is one of the most distinguished ceremonial responsibilities entrusted to trained personnel. It represents discipline, precision, respect, and the highest standards of ceremonial conduct. Within the National Cadet Corps, participation in such an occasion provides cadets with an opportunity to demonstrate their training, coordination, and commitment to institutional and organisational values.

On **20 March 2026**, cadets associated with the NCC unit of Narula Institute of Technology participated in the **ADG Alpha Guard of Honour**. The occasion provided an opportunity for the cadets to perform a formal ceremonial duty associated with the visit of a senior NCC authority. Being entrusted with such a responsibility reflects the importance of maintaining discipline, alertness, uniformity, and proper conduct during official ceremonial occasions.

Presenting a Guard of Honour requires extensive preparation and coordination. Every movement, command, posture, and formation must be executed with precision and synchronisation. Cadets are expected to maintain alertness, composure, and a high standard of discipline throughout the ceremony. Such responsibilities strengthen their understanding of teamwork, obedience, punctuality, and the importance of collective effort.

For the participating cadets, the occasion was more than a ceremonial assignment. It was an opportunity to apply the values developed through regular NCC training in a formal setting. Performing ceremonial duties before a senior authority also encourages confidence, responsibility, and a deeper appreciation of the traditions and protocols associated with the organisation.

The ADG Alpha Guard of Honour stands as a meaningful event in the activities of the NCC unit at Narula Institute of Technology. It reflects the dedication of the cadets towards maintaining the standards of the National Cadet Corps and upholding its core values of **Unity and Discipline**.

Such occasions remind cadets that honour is not merely expressed through ceremonial gestures but is earned through consistent dedication, disciplined conduct, and a willingness to accept responsibility.

# BUILDING STRENGTH AND DISCIPLINE: SPECIAL PT AND FITNESS TRAINING

## Special Physical Training and Fitness Session

**April 2026:** Physical fitness is an essential component of the National Cadet Corps training programme. It plays a vital role in developing endurance, strength, agility, coordination, and mental resilience among cadets. Recognising the importance of maintaining physical preparedness, the NCC unit of Narula Institute of Technology conducted a special Physical Training (PT) and fitness session in April 2026.

The session focused on encouraging cadets to maintain an active lifestyle and understand the importance of regular physical exercise. Specialised fitness activities and physical training exercises provide an opportunity to improve overall stamina, flexibility, coordination, and body control. They also help cadets develop consistency, determination, and the discipline required to maintain physical well-being.

For NCC cadets, physical training extends beyond improving individual fitness. It forms an integral part of their preparation for parade, camps, outdoor activities, and other organisational responsibilities. Regular participation in PT sessions helps develop the endurance and alertness required to perform various duties effectively. It also encourages cadets to understand the relationship between physical preparedness, mental strength, and personal discipline.

The special training session provided an opportunity for cadets to engage in structured physical activities and reinforce the importance of maintaining fitness as a continuous practice rather than an occasional exercise. Through collective participation, cadets were encouraged to motivate one another, maintain consistency, and develop a positive attitude towards physical training.

Beyond physical development, such sessions also contribute to building self-confidence and a sense of personal responsibility. Cadets learn to set fitness goals, work towards gradual improvement, and recognise the importance of patience and perseverance. Developing these habits at an early stage can positively influence their academic, professional, and personal lives.

Such sessions also strengthen the spirit of teamwork and collective responsibility. Training together helps cadets build mutual encouragement, cooperation, and a shared commitment towards achieving individual and group fitness goals.

The special PT and fitness training conducted in April 2026 reflected the NCC unit's continued emphasis on the holistic development of its cadets. It reinforced the belief that physical fitness, mental resilience, and disciplined living are essential qualities for responsible and capable individuals.

# PRECISION UNDER PRESSURE: A JOURNEY IN SHOOTING EXCELLENCE

**Inter Group Competition (IGC) and Inter Directorate Shooting Sports Competition (IDSSC) | May 2026**

**CUO Divyaansi Singh and LFC Simran Kumari**

**May 2026:** Shooting sports form an important part of the specialised training opportunities available to cadets of the National Cadet Corps. Competitions at different levels provide a platform to develop precision, concentration, mental composure, discipline, and the ability to perform under competitive conditions. They also encourage dedication, regular practice, and a spirit of healthy competition among participants.

In May 2026, **CUO Divyaansi Singh** and **LFC Simran Kumari** of Narula Institute of Technology participated in the Inter Group Competition (IGC) and Inter Directorate Shooting Sports Competition (IDSSC). Their participation reflected their continued engagement with specialised shooting activities and the opportunities available to NCC cadets to demonstrate their abilities at competitive levels.

Shooting requires a combination of technical skill and mental discipline. Maintaining a stable posture, controlling breathing, coordinating movements, and focusing on the target are essential elements of the sport. Competitive shooting further demands patience, consistency, self-control, and the ability to remain composed under pressure. Through participation in such events, cadets gain practical experience and develop a deeper understanding of the discipline required to perform effectively.

For the participating cadets, these competitions offered an opportunity to engage with fellow shooters, experience a structured competitive environment, and learn from the challenges associated with the sport. Such exposure encourages continuous improvement while strengthening confidence, determination, and sportsmanship.

Participation in IGC and IDSSC also highlights the importance of specialised training within the NCC Air Wing. It encourages cadets to explore their individual interests, pursue excellence through consistent effort, and develop skills that complement their overall NCC training.

For Narula Institute of Technology, the participation of CUO Divyaansi Singh and LFC Simran Kumari represents another meaningful contribution to the activities of its NCC unit. Their involvement serves as encouragement for fellow cadets to pursue specialised opportunities with dedication and discipline.

# AIMING FOR EXCELLENCE: PRECISION, FOCUS AND DISCIPLINE

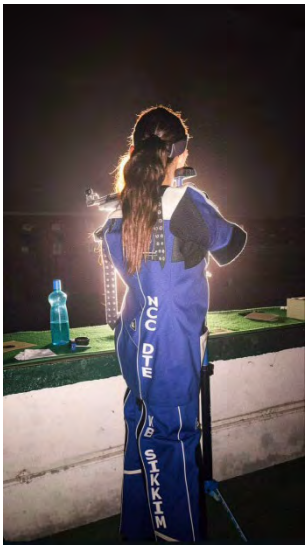

## Inter Directorate Shooting Sports Competition (IDSSC) 2026 | CUO Divyaansi Singh

**June 2026:** The Inter Directorate Shooting Sports Competition (IDSSC) is an important national-level platform within the National Cadet Corps, providing cadets with an opportunity to demonstrate their shooting skills, precision, concentration, and discipline. The competition brings together participants from different NCC Directorates, encouraging healthy competition, sportsmanship, and continuous improvement.

The participation of Cadet Under Officer (CUO) Divyaansi Singh of Narula Institute of Technology in IDSSC 2026 marks a noteworthy moment in the journey of the institute's NCC unit. Her involvement reflects the opportunities available to NCC cadets to explore specialised training and demonstrate their abilities at a competitive level. The photographs from the event capture her participation in rifle shooting, highlighting the concentration and controlled approach required in this demanding discipline.

Shooting requires much more than physical ability. It demands patience, mental composure, coordination, consistency, and the ability to maintain focus under competitive conditions. Every attempt involves careful preparation, a stable posture, controlled breathing, and precise execution. Participation in such competitions helps cadets understand the importance of regular practice, self-discipline, and attention to detail while teaching them to remain composed when facing challenges.

For CUO Divyaansi Singh, participating in IDSSC 2026 provided valuable exposure to a competitive shooting environment and an opportunity to interact with cadets from other Directorates. Such experiences encourage learning, strengthen sportsmanship, and contribute to personal development by building confidence, determination, and responsibility.

For Narula Institute of Technology, her participation reflects the continuing efforts of its NCC unit to encourage cadets to pursue diverse opportunities and develop skills beyond routine training. It also inspires fellow cadets to explore their interests, remain committed to practice, and approach every challenge with dedication.

IDSSC 2026 stands as a valuable chapter in the NCC journey of CUO Divyaansi Singh, reflecting the importance of focus, perseverance, and the pursuit of excellence.

# YOGA FOR UNITY, HARMONY AND WELL-BEING

## International Day of Yoga 2025 | Red Road, Kolkata

**June 2026:** The International Day of Yoga is observed every year to promote the importance of physical, mental, and spiritual well-being. Yoga, as an integral part of India's traditional heritage, encourages a balanced approach to life through physical postures, breathing techniques, meditation, and self-discipline. The occasion provides an opportunity to bring people together and create awareness about the importance of maintaining a healthy lifestyle.

In 2025, cadets associated with the National Cadet Corps (NCC) unit of Narula Institute of Technology participated in the International Day of Yoga observance at Red Road, Kolkata. The event brought together a large gathering of participants from different institutions and backgrounds, reflecting the growing importance of yoga as a practice for promoting health, harmony, and collective well-being. The participation offered cadets an opportunity to be part of a wider public initiative dedicated to health awareness and personal wellness.

For NCC cadets, yoga holds particular significance as it complements the values of discipline, physical fitness, mental alertness, and self-control that are central to their training. Regular engagement with yoga can help improve flexibility, balance, concentration, and emotional composure. These qualities are valuable in both personal life and the demanding training environment of the National Cadet Corps.

The observance also highlighted the broader message of yoga as a means of promoting unity and social harmony. By bringing together individuals from diverse backgrounds, the occasion demonstrated how a shared commitment to health and well-being can create a sense of togetherness. Participation in such programmes encourages young people to recognise the importance of healthy habits and incorporate them into their daily routines.

The presence of NCC cadets at Red Road reflected their enthusiasm for community participation and their willingness to engage in activities beyond regular institutional training. It also reinforced the idea that a disciplined lifestyle involves not only physical preparedness but also mental balance, awareness, and responsible personal choices.

The International Day of Yoga 2025 was a meaningful experience for the cadets of Narula Institute of Technology. Their participation reaffirmed the importance of fitness, mindfulness, discipline, and unity in shaping healthy and responsible individuals.

# EMBRACING WELLNESS THROUGH YOGA

## 12th International Day of Yoga | 21 June 2026

**June 2026:** The International Day of Yoga is observed worldwide to highlight the importance of physical, mental, and spiritual well-being. Recognising yoga as an integral part of India's cultural heritage, the occasion encourages individuals to adopt a balanced lifestyle through physical postures, breathing exercises, meditation, and mindfulness.

On 21 June 2026, the National Cadet Corps (NCC) unit of Narula Institute of Technology organised an observance of the 12th International Day of Yoga at the institute's Central Campus. The programme brought together NCC cadets in an atmosphere of enthusiasm and collective participation, highlighting the importance of incorporating healthy practices into everyday life.

The session provided cadets with an opportunity to practise yoga postures and understand their role in maintaining physical fitness, flexibility, balance, and mental concentration. The participants performed yoga exercises together, demonstrating the importance of discipline, coordination, and consistency. The activities also encouraged cadets to appreciate the connection between physical health and mental well-being.

For NCC cadets, yoga complements the principles of the organisation by promoting self-discipline, patience, concentration, and control. These qualities are essential for individuals undergoing structured training and preparing themselves to take on responsibilities in different spheres of life. Regular practice can also help develop a positive attitude, improve focus, and encourage a healthier approach to daily challenges.

The celebration at Narula Institute of Technology reflected the institute's commitment to promoting holistic student development through activities beyond the conventional academic environment. It also reinforced the message that fitness and well-being should remain an integral part of a disciplined lifestyle.

The observance of International Day of Yoga 2026 was a meaningful initiative by the NCC unit, encouraging cadets to embrace yoga not merely as an annual activity but as a lifelong practice for healthier living.
