NATIONAL SERVICE SCHEME (NSS)

The National Service Scheme (NSS) was officially started in the year 1969, to establish a meaningful linkage between the campus and the community. The vision is to build the youth with the mind and spirit to serve the society and work for the uplift of our country as a movement.

- Social services are a range of public services provided by any national or regional government organization for its residents, including such things as health care, public housing, social care and social security.
- According to Web definition, it is an organized activity to improve the condition of disadvantaged people in society.
- According to Merriam Webster, „Social service is an activity designated to promote social well-being specifically organized Philanthropic assistance to disadvantaged“.

After independence the University Grants Commission, headed by S. Radhakrishnan, recommended the introduction of voluntary national service in academic institutions. This idea was again considered by the Central Advisory Board of Education (CABE) at its meeting in January, 1950. Mahatma Gandhi, the Father of the Nation, had recognised that the country could not progress in a desired direction until the student youth were motivated to work for the upliftment of the villages/community. For Gandhiji, the villages, where majority of the population living, represent the country. Therefore, for the national reconstruction and national resurgence it was deemed fit that the students and teachers should be properly sensitised and utilised for strengthening the Indian society as a whole with particular emphasis on rural community. Therefore, student youth, teachers and the community are considered as the three basic

components of the National Service Scheme. After examining the idea and the experiences of other countries in this field, the board recommended that students and teachers should devote time to voluntary manual work. In 1958 Jawaharlal Nehru, in a letter to the chief ministers, considered the idea of social service as a prerequisite for graduation. It was directed the Ministry of Education to formulate a suitable scheme for the introduction of national service into academic institutions. The Education Commission (headed by D.S. Kothari from 1964–1966) recommended that students at every stage of education should be associated with some form of social service. In a government statement of national policy on education, it was stated that work experience and national service should be an integral part of education. The National Service Scheme has been functioning with the motto “NOT ME BUT YOU” in view of making the youth inspired in service of the people and hence NSS Aims Education through Community Service through Education.

Social services are a range of public services provided by any national or regional government organization for its residents, including such things as health care, public housing, social care and social security. According to Web definition, it is an organized activity to improve the condition of disadvantaged people in society. We stay true to our mission by realigning our wide-ranging roles with five new strategic thrusts to better meet tomorrow’s social needs. Expanding on our responsibilities as a membership body, we strive to be the voice of the sector and an advocate for underserved needs. We enhance social services, pioneer innovative programs, improve service delivery and efficacy, and increase corporate and community engagement to match capabilities and needs. Our multidirectional efforts to raise capabilities, mobilize resources and provide funding to scale up the sector’s competencies have a key goal in mind – assisting our members to create lasting positive impact. Therefore, for the national reconstruction and national resurgence it was deemed fit that the students and teachers should be properly sensitized and utilized for strengthening the Indian society as a whole with particular emphasis on rural community. Therefore, student youth, teachers and the community are considered as the three basic components of the National Service Scheme.

Vision: The vision is to build the youth with the mind and spirit to serve the society and work for the uplift of our country as a movement.

Purpose: To ensure that every person has the opportunity to live a life of dignity to his or her fullest potential within society.

Mission: To provide leadership and direction in social services, enhance the capabilities of social service organisations, and promote strategic partnerships for social services. The National Service Scheme has been functioning with the motto “NOT ME BUT YOU” in view of making the youth inspired in service of the people and hence NSS Aims Education through Community Service through Education.

Objectives of NSS:

- To develop confidence for self-education for lifelong learning of advancements being happened around the world.
- To understand the community in which they work
- To understand themselves in relation to their community
- Identify the basic needs and problems of the community
- Develop among themselves a sense of civic responsibility
- Develop competence required for group living and responsibilities
- Gain skills in mobilizing community participation
- To acquire leadership quality
- To develop capacity to meet emergencies
- Practice national integration and social harmony.
- To exhibit the professional knowledge and accepting ethical responsibility to the problems of industry and society.
- To develop professional, ethical attitude, team building skills and multi-disciplinary approach to demonstrate the ideal behavioral qualities while leading the team for deriving maximum productivity.
- To develop consciousness in the issue of social concerns and enabling students to upgrade their personality and experience through community services to have a meaningful linkage between the Institution and Society

NSS SYMBOL

The **EIGHT BARS IN THE WHEEL** represent the **24 Hours of a day.**

The **RED** colour indicates, **active, energetic and full of high spirit.**

The **NAVY BLUE** colour indicates the **cosmos of which the NSS is, tiny part, ready to contribute its share for the welfare of the mankind.**

Core Values **PASSION** We are driven to help make a difference in the lives of the people we serve. **PEOPLE** We enable the people we serve, our volunteers and staff to realize their fullest potential. **PRODUCTIVITY** We pursue excellence through continuous learning and improvement. **PARTNERSHIP** We engage in „win-win“ partnerships always for the benefit of the people we serve.

Why Technical Persons Intend to do Social Service?

- In any developmental work people are the most important stakeholders. It is so because of the fact that all developments need to help some targeted population, be it in the realm of health, education, water supply, drainage/sewerage or any other engineering facts.
- Engineers per say one of the major couriers right from the post-independence era.
- Growing influence of globalization and participation of all the development stakeholders has been more pronounced.
- In any kind of developmental process, careful and specific planning to help the stakeholders both from the angle of participation and implementation.
- Today with the rapid advancement of ICT, this need has become manifold. The actual implementers need to know both the environment and population in a holistic manner.

- In today's world, this is most important because the executors must learn to know and analyze the actual ground reality from a better return to the society.

Typical NSS projects which are conducted within college Campus are as follows:

1. Tree plantation
2. Plastics eradication from college campus
3. Literacy classes
4. AIDS Campaigning Workshop

The students of Narula Institute of Technology are also involving in different types of social work such as

- To plant trees inside college campus and their home.
- Making Fast aid box
- Making different things using waste material- Waste management.
- Designing flex for laboratory.
- Writing moral & great people stories and making different posters regarding awareness of Anti-Smoking, Anti-Ragging, Global Warming, Anti-Dowry etc.
- Modelling of Thermal Power Plant.
- Surveying nearest slum area & preparing a report of their educational and social status:
 - How many people of the area are primary educated or doing higher studies?
 - How many of them are suffering from fatal & acute disease?
 - Number of members in each family & so on.
 - All these activities are done in a group. Every group has group leader & progression of work is informed by the group leader.

TREE PLANTATION

NIT, AGARPARA | APRIL 22, 2017

Objective of the Program: To spread the awareness about the importance of plants and trees for the environment.

Number of Participant: 259

Description of the Program:

Planting a tree has always been a significant part for the betterment of earth and society. As global warming and water crisis are the key challenges to the world the only way to overcome is to plant as many as trees. Trees offer many environmental as well as economic and social benefits over and above to the survival of human beings.

Narula Institute of Technology organised a Tree Plantation Program on 22nd April, 2017. Ms. Nidhi Singh along with other faculty and staff members have planted tree saplings and made a sincere effort in making earth a better place for the future generation. Our team felt proud to take such initiative and contributing a bit to the environment.

Under the mentorship of Principal and all the Departmental Heads, 259 Students, Faculty and Staff members joined hands to plant around fifty saplings/plants of medicine, fruits, and flowers all around the college premises with the pledge to keep the environment green and make it a better place to live.
