1	Facilities for Different Disabled Persons	1

NARULA INSTITUTE OF TECHNOLOGY

The Institute provides the following facilities for different disabled persons

1) Built Environment with Ramps/Elevator for Easy Access to Classrooms:

Ramp/Rails: The institute has a special facility of ramp for the disabled people. The main entrances and exits can be clearly identified and easily accessed. Disabled persons in wheelchairs can easily use the ramp in this institute to enter into the main college building. The ramp has hand railings and is conveniently located beside the lift.

Elevator : Provision of elevator for people with disabilities is available in the ground floor of the institute building. This is equally accessible to cross-disability groups. The lift doors provide smooth passage for wheelchair users and the lift cage can accommodate one wheelchair user and a guide. Control Panels have large buttons and these are embossed. Control Panels are at convenient heights and can be operated from a sitting position on the wheelchair. Visual and audible signals indicating the arrival at different floors are also available.

2) Disabled-Friendly Washrooms:

Separate toilets are available for people with disabilities in this institute. Washrooms are clearly identifiable and accessible for the disabled persons. The doors are wide enough and lockable from inside and releasable from outside. All floor surfaces are slip resistant.

3) Signage and Signposts:

Inside the institute campus, signage and display boards are present in all floors to guide a person to the departments or the facilities available in the institute.

4) Provision for enquiry and information: Human assistance, reader, scribe, soft copies of reading material, screen reading:

Physically handicapped candidate can take assistance from security personnel and the reception at the entrance. During written examinations, Controller of Examination (COE) provides any required support to the candidates. A carefully maintained sick room with adequate ventilation and sick beds is available at the ground floor. With prior approvals from one of the institute committees, COE may appoint a writer for a candidate with specific disability or injury to write his/her examination.
